Dated Deliveries: Due to world conditions affecting labor, and varied weather conditions, we cannot guarantee a specified date, however, will ship near the date specified.

Due to unsettled world conditions, affecting labor in the war zone, also, transportation, this district produces the following specie of seed which has been practically off the market, and when obtainable, the price has been more than trebled, covering Scotch Pine, Austrian Pine, Norway Spruce, Mugho Pine, Larch, and many other hardy imported species and varieties. Scarcity of labor has greatly affected the price of domestic species, Norway Red Pine has more than trebled, as well as most other species. These conditions will reduce the plantings to a minimum, and nursery stock will be extremely scarce until several years after the war is over.
